

AASP-MN Members Receive AAM Designation

Five AASP-MN members graduated from the Automotive Management Institute (AMI) and received the Accredited Automotive Manager (AAM) designation in 2006. They were:

- Scott Gudmunson, Lehman's Garage, Bloomington
- Kenneth Lindgren, Lehman's Garage, Bloomington
- Dan Scherer, Four Seasons Automotive, Plymouth
- Dan Swenson, Alexander's Import Auto Repair, Minneapolis
- Ron Zappetillo, Autoworks Collision & Glass, Wayzata

To earn the Accredited Automotive Manager (AAM) designation, students must earn 120 credits by successfully completing AMI curriculum. Congratulations to the class of 2006!

A reminder...AASP-MN has purchased all of the AMI self-study programs for its members' use. There is a \$35 charge for each test and a \$10 shipping and handling fee. The 15 self-study courses earn students 158 credits toward their AAM.
